Ramsey, MN 55303

Dear Fridley Roofing:

Due to a hailstorm in May of 2008, the roof on our church was damaged beyond minor repair. It had to be replaced. The damage was extensive!

We were referred to you by a satisfied customer who had done business with your company just a year earlier.

Well, the job is complete – very well done and the process was smooth. Thank you for handling the insurance claim and the negotiation that goes with all that.

Our main contact with your firm was Scott Weldon, sales and service executive. He walked all the way with us even through the installation and completion phase.

Thanks for the great job and site clean-up! "TOP NOTCH"
